PL101-510

Public Law 101-510 (10 U.S. Code 1095) established the Third Party Collection Program. The program directs military hospitals to bill private insurance companies for the cost of care provided by the military facility. When a patient has commercial insurance, the government must bill the insurance company for outpatient and inpatient care. The government determines the cost of an outpatient clinic visit and bills this amount to the insurance company. The cost for inpatient stays are determined by Diagnosis Related Groups (DRG).

Your insurance company cannot charge you for the deductible or co-payment for care received through the military facility. The government will absorb these costs. Therefore, claims filed by the government for care you received may count toward meeting your deductible. This may result in a significant savings to you if you later seek civilian medical care.

The Medical Recovery Program provides the statutory and regulatory authority to recover the reasonable value of medical care rendered for injuries or illnesses provided at Government expense to active duty members, dependents (as defined at 10 U.S. Code 1072), and retirees (as defined at 10 U.S. Code 1074), under circumstances creating third party tort liability.

The Medical Affirmation Claims (MAC) Program (42 U.S. Code 2651-1653 and CFR 43), the Federal Claims Collection Act (31 U.S. Code 3711-3720 A and 4 CFR 101-105), and the Third Party Collection Program (10 U.S. Code 1095 and 32 CFR 220), apply to these claims.
